

Dear All,

TEKNOFEST 2020 Technology Competition Applications Are Now Opened!

TEKNOFEST, has managed to be the best aviation and technology activity not only in Turkey but in the world, too.

50,000 competitors, across 17,373 teams, and representing 122 countries, earned a spot as finalists in Teknofest 2019. Their competitions span a range of 19 categories from aviation to automotive, from AI to simulations, and from Underwater Autonomous Vehicles to Unmanned Aerial Vehicles and more.

A total of 4 Million TL has been allocated for the competitors who pass the first round of elimination, with 3 million TL in prize money for winners. This year also the applications are open for the teams from abroad.

You can visit the following link for TEKNOFEST 2020: <https://youtu.be/uRw2Q6n0mUQ>

Application Deadline for the Technology Competitions including many different areas from Artificial Intelligence to Flying Cars, from Autonomous Systems to Space Technologies with awards of more than 3 Million TRY is 28 February 2020.

As representatives of the Turkey Techology Team Foundation, it is our pleasure to inviting you to the technology competitions which will be held within the scope of TEKNOFEST Aerospace and Technology Festival, this September in Turkey.

The competitions come as part of the TEKNOFEST, a space and technology festival organized by the Turkish Technology Team Foundation (T3 Foundation) in partnership with our Ministry, the Under secretariat for Defense Industries of Turkey, and other stakeholders from private and public sectors.

**The competitions to be held within the scope of TEKNOFEST 2020 are as follows:**

**Competitions for Primary School Level Teams:**

- Technology for Humanity Competition
- Educational Technologies Competition
- Smart Transportation Competition
- World Drone Cup
- Hack Zeugma

**Competitions for Middle School Level Teams:**

- Technology for Humanity Competition
- Educational Technologies Competition
- Smart Transportation Competition
- World Drone Cup
- Hack Zeugma
- Flying Car Design Competition

### **Competitions for High School Level Teams:**

- Technology for Humanity Competition
- Educational Technologies Competition
- Environment And Energy Technologies Competition
- Smart Transportation Competition
- Helicopter Design Competition
- Flying Car Design Competition
- Unmanned Underwater Systems Competition
- Rocket Competitions
- Robotics Competitions
- Robotaxi (Full Scale Autonomous Vehicle) Competition
- Agricultural Technologies Competition
- Biotechnology Innovation Competition
- World Drone Cup
- Hack Zeugma

### **Competitions for Undergraduate and Post Graduate Education Level Teams:**

- Technology for Humanity Competition
- Educational Technologies Competition
- Environment And Energy Technologies Competition
- Smart Transportation Competition
- Helicopter Design Competition
- Flying Car Design Competition
- Unmanned Underwater Systems Competition
- Rocket Competitions
- Robotaxi (Full Scale Autonomous Vehicle) Competition
- Agricultural Technologies Competition
- Biotechnology Innovation Competition
- World Drone Cup
- Hack Zeugma
- Efficiency Challenge Competition
- Unmanned Aerial Vehicle Competition
- Satellite Model Competition
- Swarm UAV Simulation Competition
- Jet Motor Design Competition
- Travel Hackhaton
- University Students Research Projects Competitions

### **Competitions for Graduates Level Teams:**

- Technology for Humanity Competition
- Environment And Energy Technologies Competition

- Flying Car Design Competition
- Educational Technologies Competition
- Smart Transportation Competition
- World Drone Cup
- Hack Zeugma
- Agricultural Technologies Competition
- Robotaxi (Full Scale Autonomous Vehicle) Competition

**Winners will be awarded with the final prize over 3 million TL in total. Furthermore, Accommodation and Transportation support will be provided for successful finalist teams.**

Visit <https://www.teknofest.org/en> for details and applications till February 28, 2020.

We will be more than happy, if you can apply and participate to the TEKNOFEST 2020 Competition.

If you apply through [yee.org.tr](http://yee.org.tr), your accommodation and travel expenses will be covered by Yunus Emre Institute!
