Project "Green Transition - Implementing Industrial Emissions Directive in Serbia 2021-2027"

Terms of Reference

International STE – Legal Expert

1. Position: International Short Term Expert - Legal Expert

2. Project background

The project's aim is to enhance the prevention and control of industrial pollution in Serbia through the support to industry and institutions in achieving the required level of readiness for the accession to the EU and being prepared for Green Transition.

This general aim encompasses 4 specific objectives:

AIM: Enhanced prevention and control of industrial pollution in Serbia Enhanced Increased knowledge about Strengthened Sustainable preparedness for IED and quality of implementation uptake of BAT public the negotiation **OBJECTIVES** of the National through with the EU of IED participation in Legislation on innovation and and connected the integrated **IPPC** green transition topics permitting process

The activities that will be implemented in order to achieve these objectives are grouped in 4 strategies:

- S.1 Enhancing the quality of the negotiating position on IED;
- S.2 Increasing the efficiency of the integrated permitting process;
- S.3 Promoting the compliance with the BATs requirements;
- S.4 Raising awareness and knowledge on industrial pollution prevention and control.

These strategies are designed in a way to support the full implementation of the national regulation on IPPC by promoting the transition of Serbian industries to green technologies. This means helping Serbian institutions to introduce the necessary changes in the legal and administrative framework that will minimize the influence of existing obstacles and bottlenecks on the IPPC regulatory cycle. Additionally, it will be pursued an enhancement of the knowledge of industrial operators about the importance of the compliance with BAT requirements in connection with the opportunities offered by the Green Transition.

Project's implementation phase has started on the 1st August 2021 and its duration was initially planned until the 31st December 2024. In December 2023, Sida and the Faculty of Technology and Metallurgy, University of Belgrade signed an extension of the project activities until the 31st December 2026. The extension of the project duration is aimed at further supporting Serbian institutions and companies for the implementation of the new Law on IPPC.
